

Dear FCC, Regarding the proposal to expand LPFM stations to take priority over current FM service, I implore you to not allow this to affect K-LOVE radio. I listen to 96.3FM in the Vancouver, WA area and support it financially each month. If LPFM were allowed to take over K-LOVE radio, hundreds of thousands of people would lose this wonderful service. K-LOVE is not just a station, it is a wonderful service and ministry to those of us who listen to and LOVE it. In a society so full of indecency and crudeness, K-LOVE offers a clean, uplifting, family-safe program that I thank God for. Peoples lives are changed every day due to this broadcast. Not only due people hear a positive and encouraging message, but suicides have been prevented from the counseling that is available to someone who is disparting in life. PLEASE, I ask you from the bottom of my heart, do not allow my K-LOVE signal to be taken away for some lesser purpose. Very Sincerely, Mystie Munsey
